Summary

With 1+ year of experience in frontend development and five completed projects, I am a graduate of the Telerik Academy's Alpha JS track. I have developed strong skills in front-end technologies, including HTML, CSS, JavaScript, TypeScript, and React, along with back-end knowledge in Node.js, Next.js, and Firebase. I am also well-versed in UI libraries such as Tailwind CSS, Ant Design, and Chakra UI.

I am eager to apply my diverse experience, creative thinking, and technical skills to contribute to the development of software projects and applications.

Projects

Currency Converter   02/2025 - Present

Convert from USD (Base) to 33 other currencies, learned a lot from it. Redux, Express.js, the new TailwindCSS(v4) implementation for the first time here. Learned how to use Vercel configuration file so i can run both front-end and back-end (as Vercel function) on same deployment.
