SUMMARY

With 1+ year of experience in frontend development and five completed projects, I am a graduate of the Telerik Academy's Alpha JS track. I have developed strong skills in front-end technologies, including HTML, CSS, JavaScript, TypeScript, and React, along with back-end knowledge in Node.js, Next.js, and Firebase. I am also well-versed in UI libraries such as Tailwind CSS, Ant Design, and Chakra UI.

I am eager to apply my diverse experience, creative thinking, and technical skills to contribute to the development of software projects and applications.

PROJECTS

Portfolio: Portfolio Hosted on Vercel   08/2024 - Present

This portfolio is built with Vite and React and is an ongoing project designed to showcase my skills and experience. It features smooth animations with GSAP and responsive design using Tailwind CSS. Through this platform, I aim to present my personal projects, technical abilities, and creativity.
- React.js, Type Script
- TailwindCSS, GSAP, Git

Forum: Tasty Recipe Talk   05/2024 - 05/2024

As part of a team, I was involved in creating the food recipe forum, creating the database connection, the GitHub repository. Building functionality and style of the project.
- React.js, JavaScript, Firebase
- Chakra UI, Git

RELEVANT EXPERIENCE

Freelance Developer   02/2023 - 06/2023

Groshev & Partners   Sofia, Bulgaria

Led client communication to understand and refine project requirements, planned the optimal technologies for the project, and outlined the steps needed to meet the client's criteria.
- Next.js, React.js, Type Script, JSON
- Additional Libraries: TailwindCSS, Daisy UI, Google Blogger API
